

Ravapura[®]

PCR Compounds

RAVAPURA[®] LDPE & LLDPE

Ravapura LDPE combines excellent processing and consistent mechanical properties. It is most suitable for use in primary and secondary packaging applications.

FEATURES & BENEFITS

- Produces fully transparent films with low gel level and minimal odor
- Used in monolayer and multilayer films, both in skin and core layers
- Options for tailor made blends based on your specific needs

PRODUCT PORTFOLIO	RAVAPURA 10002
PCR content	100%
Virgin polymer	LDPE or LLDPE upon request
MFI	1.7 - 2.4 g/10 min
Density	0.910 - 0.935 g/cm ³

RANGE OF APPLICATIONS

PRIMARY PACKAGING

SECONDARY & TERTIARY PACKAGING
